OIL AND GAS.

MAY BE TRUE, BUT IT SOUNDS—

The following dispatch from Dunkirk tells of an oil well completed there Thursday:

The Woodruff well, No. 3, drilled in this morning at 10:20, and oil in large quantities has been found. The drill went twenty feet in the Trenton rock. The well is good for one hundred barrels per day and over half a million feet of gas. It is the greatest and best well ever drilled in this part of the country. This flow of oil continues to increase rapidly along, and experienced oil men say it may yet turn out to be five times the corporation of Dunkirk and has caused great excitement among our people.

NOTES.

The Ohio Oil company's Baker No. 2, southwest of Cridersville, is due next week.

The Jacob Loyer well, north of the Graham, in the Hume district, will be in about ten days.

The Shawnee Oil company's Aaron Mowery No. 2 is due next week. Their No. 1 is almost as good as when it was drilled in two months ago.

Mooney & Co.'s well on the McElroy farm, three and one-half miles southeast of Cridersville, will be in the coming week. It is a wild-cat and is over a mile from developments.

The Gray Eagle Oil company is still pumping their first well on the Reichelderfer farm, trying to exhaust the salt water. The well has made a slight showing of oil and has been decided to pump it thirty days. Another well will be drilled.

Sheridan Bros., of this city, who drilled a failure on the Dan Bowsher farm, between the Irwin Bowsher and the Aaron Mowery farms, have decided to drill another well, since the Cridersville Oil company drilled in their good well on the former farm the fore part of the week.

Robert Collier's Father.

And now about my father, writes the Rev. Robert Collier, D. D., in The Ladies' Home Journal. I think still he was as good a smith as I have ever known, a man who would forge no lie in iron or steel, with soft, steadfast brown eyes, strong and sincere arms to labor and never sick a day I can remember, always at his work until he fell dead that day with the hammer in his hand. Blacksmiths, I think, are usually silent men. The old Beechers were, as I have heard, who were of this craft, silent men who let their year up speech to their sons and grandsons. This was my father also. He was a silent man, while both father and mother were as free from contagions and infections as the sound oaks and the stars, so that the microbes, when they came in the dreadful form of fumes, found nothing in them for prey.

WON AFTER ALL

Lima Pounded Out a Victory in the Ninth Inning.

Lima won yesterday's game after half of the spectators and left, as the game seemed lost beyond a doubt. In the ninth inning, with two men out, Lima started the fun, and the boys slugged out five runs, winning the game by two scores. It was an elegant game Lima started out with enough runs to win an ordinary game, but Kenton caught up in the third, and then it was a hotly contested game until the finish. The feature was the long running catch of Smith in the ninth,

AN UNLUCKY SPARK.

The Greatest Explosion of Gunpowder the World Has Ever Known.

The greatest explosion of gunpowder the world has ever known took place at the Du Ponts' works on the 7th of October, 1890. With their usual cautious policy the Du Ponts have never started just how great a quantity of powder exploded at this time, but it is certain that three magazines and three mills in the upper yard were blown up, one after another, and a safe estimate will put the quantity of powder exploded at 150 tons. In this explosion 13 men and 1 woman were instantly killed, while 23 men and 9 women were injured, some fatally.

This explosion occurred a little after 3 o'clock in the afternoon. It began in the magazine for hexagonal powder, the 2nd used in large guns, and the most dangerous, being made not in grains, out in reddish, six sided cakes about an inch and a half in diameter, and an inch and a half in length, and weighing through the center. These cakes look like nothing so much as the nuts on a wagon wheel. At the time of the explosion cakes of powder were being packed into large wooden boxes lined with tin, each box being about 3 feet square. The tin hangings projected above the tops of the boxes about two inches, and when a box was packed were folded down over the tin cover fitted closely upon the cakes of powder. It was the duty of one of the workmen, William Green, to solder these tin edges down upon the tin cover, so that it being used for this purpose.

The day's work was done when he had feared time to pass. A fellow work-

1 year ago, \$2,500—South Union street

These are but a few of the many bargains in houses and lots on my list for sale. Have also vacant lots, and particularly the Coalbrook lots which are offered at the lowest prices on reasonable terms. Enquire and see for yourself.

the hot irons from a charcoal brazier about 25 yards distant. Green stood at the door of the open magazine, and all around him were uncovered boxes filled with the hexagonal powder ready to be sealed upon a stove and blown away. There were also dozens of boxes that had been sealed. Just what happened will never be known, for neither Green nor McGarvey was left to tell the story. But the probability is one of the soldering irons was a little too hot, and by touching a particle of dirt on the tin cover produced the deadly spark.—Cleveland *Press* in McClure's Magazine.

of religious science after listening to "whitehead's" condemnation of science, research from a Roman Catholic bishop said to him, "Have you ever seen God?" Of course not," the bishop answered. "Then I have this advantage as a searcher of truth over theologians," replied Professor Priest, "for the longer study the phenomena of nature the more distinctly I see God in all of nature's operations."

When Edison was asked, "Do you believe in a personal God?" "Certainly," he answered. "The existence of God is to my mind, almost beyond proof by chemistry."

"The reason for skepticism and unbelief is not to be wondered at," wrote Thornton, "when men interested in scientific research find no evidence, from their experiments, of the presence of God in the universe. How could they otherwise? God has to man but a subjective existence, which could never be reached by any known mode of experiments. Therefore man must get out of himself, which means that he must 'die' to know God and the reality of things."—Mrs. Blomfield Moore, New Science Review.

The Name Acrossed Her.

Mr. Rufus Latham declares that once found political animosity of God service to him in painting a portrait.

His sister was a London lady who longed to a family renowned for staunch political opinions. It was the height of summer and very hot. The lady was inclined to be stout, and under the influence of the heat she now then fell into a nap, to the serious annoyance of the painter.

Her husband, who knew her weakness in this regard, asked Mr. Latham the lady's absence if he had experienced any trouble of this kind. Mr. Latham could only deny it.

"Very well," said the husband, "next time it occurs you just name Mr. Gladstone and you will have further difficulty."

The artist took the hint, with immediate effect. Henceforth the lady was most too wide awake.—Youth's Companion.

J. W. Halfhill is building two fine
modern dwellings on Collett street,
between High and Market.

Mr. Obadiah Good, who has been
very sick with liver and stomach
trouble, is not expected to live.

Miss Lulu Howard, of 312 south
Pine street, who has been very ill
with an attack of quinsy, is some
better.

Jim Folk, tried in Common Pleas
Court yesterday for concealing stolen
property, was found guilty by the
jury last evening.

The two-year-old son of Mr. and
Mrs. Chas. Boush, of McPherson
avenue, is slowly recovering from an
attack of typhoid fever.

Work was commenced today on
the foundation of a handsome new
residence for Attorney Adkins, at
the corner of Wayne street and Pil-
lar's avenue.

Willie, son of Mr. and Mrs. W. J.
O'Connor, entertained a number of
his little friends at his home on
north Main street this afternoon,
from three to eight, in honor of his
sixth birthday anniversary.

Silas Lupton, who lost both legs in
an accident several years ago, has
been sick for some time and his sav-
ings are almost exhausted. He lives
back of the L. E. & W. freight house
and the family is deservingly of any
charity that may be extended.

June fire alarm No. 12 was sent in
about 12:45 o'clock today from box
14. Gagin's field along the C. H. &
D. tracks and east of the extreme end
of Main street; was on fire, the dry
grass having been ignited by a spark
from an engine. No water was
thrown.

Mrs. Lottie Green, died at Colum-

cancer. The deceased was 59 years
of age and was formerly a resident of
this city, having removed to Colum-
bus about six years ago. The re-
mains will be brought here Monday
for burial.

Shortly after 6 o'clock last evening
the fire department was called out
by an alarm of fire from box 41, at
Main and Elm streets. The fire was
in a closet on the second floor of P.
A. Low's residence, on south Main
street, and some clothes belonging to
a roomer was destroyed. The house
was not damaged.

The First Congregational church
will probably not seek a pastor to
succeed Rev. J. Francis Dayles until
September. The following commu-
ties has been appointed to look after
the matter: Messrs. B. F. Thomas,
John B. Derringer, D. H. Lepley, J.
W. Smith, Robert H. Gamble and F.
A. Kahle. The committee will meet
to-morrow evening to discuss the
matter, but the belief is that nothing
will be done until fall, owing to
the fact that the time for the sum-
mer vacation is near at hand.

Some time ago dining cars owned
and controlled by the Pennsylvania
Railroad company superseded those
of the Pullman company east of Pitts-
burg, except on the New York and
Chicago limited. A plan is now un-
der contemplation whereby the Pull-
man dining cars run on the through
trains west of Pittsburgh will be taken
off and the Pennsylvania company
run its own cars. So far as tested,
the Pennsylvania officials have found
it much more satisfactory to operate
their dining cars, and they claim
that there is much gained on the
score of economy.

Engineer Geo. Moyer, of the Water

to furnish the temporary home.
The matter of building another
home has been discussed and will be
taken up and acted upon at a meet-
ing of the board, in Columbus, in

Charley Pangle was in Sidney yester-
day attending the races, and says
there has been great excitement this
week over the building of other
horses, and he expects to see the
start and to west North street,
to see the finish. The latter street
was packed.

O. R. Spurrier has had to return
his new wheel to the factory. He
ran into Dr. Rudy's buggy a few
nights ago and broke the frame.

Charles Sanger Simons ran into a

at the Decoration day, and who broke
the State record and won time in the
twenty-five mile race at Cleveland
last Decoration day, was given an
elaborate reception and banquet by
his admirers at Sidney a few nights
ago.

While on their way to Indian lake

N. Y. Z." Folz and "Sarah" Dur-
baugh were chased a fast mile by a
frisky three-year-old colt that hap-
pened to be loose in the road near
Round Head.

Soon after this exciting incident
Folz failed to make a sharp turn
and went down a twenty foot embank-
ment and landed on his head at the
foot of a big tree, which fortunately
was not damaged.

Capt. Barhydt has announced a big
run for to-morrow, leaving the square

To Wapakoneta, then to St. Marys,
then to Minster, Anna Station, Sid-
ney and Piqua. The return trip will
be made through Sidney, Anna, Bot-
kins and Wapakoneta. The entire
distance is about one hundred and
the pace-making, and those who have
ridden behind him know that the
pace will be good and steady.

Frank Platte will not make another
attempt to break LeFevre's record
until after the Poorman road race at
Cincinnati, July 4th, in which he will
ride.

PNEUMATICS.

Dr. Anna Goebel has joined the
lady cyclists and is learning rapidly.

There will be a ten-mile handicap
and several half mile bicycle races at
Bluffton on July 4th. One of the
half-mile races will be open.

If Frank Platte breaks LeFevre's
record of 2:27, there is a dark horse
who will go after Platte's record and
the chances are that he will prove
himself a very fast class A rider.

Ever since John S. Johnson, the
crack tricyclist, was recently de-
clared a professional by the National
Racing Board of the L. A. W., ru-
mors have been given wide circula-
tion to the effect that Sanger, Titus,
Zeigler, Cabanne and other class B
men were being investigated and
would deal with in a similar man-
ner.

This has caused much uneasiness
among racing bicyclists, who feared
that they might suffer the fate of
Johnson. To relieve this suspense a
bulletin has been issued by the Na-
tional Racing Board, of which the
following is a part:

"To relieve racing men of unjust
suspicion of their status caused by
unauthorized announcements of the
proceedings of the Racing Board, it
may be stated that the invariable in-
tent of this board is to fully enforce
the rules and discipline all riders,
who, by violation of the rules, render
themselves liable to a penalty."

"The fact that no penalization of
class B men appears in this week's
bulletin is evidence that the board
has so far no grounds for disciplining
any of them."

Dr. D. H. Sullivan sports a hand-
some new wheel.

An instance which demonstrates
the amount of interest taken in cy-
cling was noticeable last Wednesday
evening when the announcement in
the TIMES-DEMOCRAT that Platte
would ride against time on the road
course brought hundreds of people,
all ages to north Main street to
see the start and to west North street,
to see the finish. The latter street
was packed.
